

# Germidet

## Australian-made non-irritant and biodegradable germicidal detergent and general disinfectant.

- Use for cleaning and disinfecting animal housing.
- Use as a general farm disinfectant for cleaning calf teats/feeders.
- Safe to use in the home as a general disinfectant.
- Non-corrosive and biodegradable.
- Cuts through grime at a fraction of the cost.

*“Our sanitising products go twice as far for half the price of the competitors and we get the same kill.”*

*– Elly Baranowski, Hooper Farms, Gippsland.*

	Algae	10 ml	For prevention and control of algae on structures (Not water treatment)

## DASCO CALF SHED – HYGIENE SOLUTION

**ZorbiFresh Active**  
Natural powdered bedding conditioner that kills pathogens on impact, and absorbs up to 199% of its weight in moisture. Reduces odour for a safer environment.

### DIRECTIONS:

1. Clear shed of previous season's bedding – ideally at the end of that season.
2. Spray pens, walls, gates etc thoroughly with **Germidet** – mix at **200ml per 10L water**.
3. Spread **ZorbiFresh Active** at **50g/mt<sup>2</sup>** on the ground in pen.
4. Cover with a minimum of 150mm of clean bedding.
5. Spread **ZorbiFresh Active** at **50g/mt<sup>2</sup>** on the top of bedding once every 7 days – maintain a minimum of 150mm of bedding at all times.
6. Safe for use during season, and while calves are still in the pen.
7. Repeat process every time pen is emptied.
