

# MULTI MAX HUTCH

GROUP HOUSING

Superior ventilation is achieved through both ridge top vents, and an adjustable rear vents that gives you the option to "open a window" for great airflow.

When calves raised individually are placed in large groups, the stress from competition and social pressure can lead to setbacks in growth and health. The Multi Max hutch provides just the right environment for this important transition and stage of development. Ideal for four to six calves.

PRODUCT FEATURES & BENEFITS

OUTSIDE (L x W x H)	220 x 273 x 183 (cm)
INSIDE USABLE CALF SPACE	208 x 259 x 180 (cm)
WEIGHT	107 kg
TIMBER*	2 of 102 x 102 x 2518mm 2 of 102 x 152 x 2138mm

**Note:** A wooden base is required for the Multi Max. This can be purchased separately through Daviesway or supplied by the farmer. Fixing kit is included with Multi Max hutch.

\* Treated timber for ground use.

Multi Max hutch: Unrivalled strength, durability, and UV resilience.

Close rear vents to keep the chill out and the warmth in, ensuring maximum comfort.

# THIS IS WHAT MAKES IT A CALF-TEL®

## THERMOFORMING ADVANTAGE

Using our innovative thermoforming technology, we've continually evolved and increased our products' durability, UV resilience, ventilation and hygiene. We thermoform Calf-Tel hutches out of extruded sheets of polyethylene.

This process results in a molecular bonding within the plastic that is far superior to any other form of manufacturing – providing unmatched strength and durability. With this, we've helped farmers like you raise healthier calves – and make more money!

### We Go with the Flow

Ventilation is critical in limiting respiratory illness and eliminating heat stress. The flow of air is strategically engineered into Calf-Tel® hutches. Our indoor pen systems feature the AirMax panel for improved air-flow in challenging conditions.

### Climate-Controlled Comfort

The opaque material of our hutches help keep your calves cooler in the summer and dry on those cold winter days. The plastic contains a layer of titanium dioxide to protect UV rays from breaking down the product over time.

### We Promote Biosecurity

Calf-Tel's smooth surfaces don't have any pores, making them not only impervious to said undesirables, but super-easy to clean and maintain. When combined with proper management practices, calf raisers have found that our housing systems contribute to lower mortality, morbidity and overall treatment costs leading to enhanced calf growth.

### Money Talks

For 40 years, Calf-Tel® has been developing products that are built to stand the test of time. Longer lasting product leads to lower lifetime costs. Combine this with the cost savings and benefits of superior calf health and you can see why approximately 2 million calves are raised in Calf-Tel® housing systems worldwide each year.

## ACCESSORIES

Attaches to Calf-Tel® Fence Panel without the need for extra hardware or pail holder. 9L capacity. Available in grey and black.

Single Pail Holder, Fence Mount.

Hay Rack: Pen, Fence & Hutch Mount available.

8 L Heavy Duty Plastic Pail.

Double Pail Holder, Fence Mount.
