

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 08.08.2014

Revision: 01.08.2014

1 . IDENTIFICATION: PRODUCT IDENTIFIER AND CHEMICAL IDENTITY

Product Name: ALKA KLENZ - LO FOAM

Other Name: Mixture of alkaline salts and surfactants.

Recommended Use of the Chemical and Restriction on Use: Dairy detergent.

Details of Manufacturer or Importer:

DASCO Pty Ltd
24-26 Helen Street
Heidelberg Heights VIC 3081

Phone Number: (03) 9459 7004

Emergency telephone number: 13 11 26 (Poisons Information Centre)

2 . HAZARDS IDENTIFICATION

Hazardous Nature:

corrosion

Skin Corr. 1B H314 Causes severe skin burns and eye damage.

STOT SE 3 H335 May cause respiratory irritation.

Label Elements

Signal Word Danger

Hazard Statements

H314 Causes severe skin burns and eye damage.

H335 May cause respiratory irritation.

Precautionary Statements

- P260 Do not breathe dust/fume/gas/mist/vapours/spray.
 P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
 P280 Wear protective gloves/protective clothing/eye protection/face protection.
 P264 Wash hands thoroughly after handling.
 P271 Use only outdoors or in a well-ventilated area.
 P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 P321 Specific treatment (see on this label).
 P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
 P363 Wash contaminated clothing before reuse.
 P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
 P310 Immediately call a POISON CENTER/doctor.
 P312 Call a POISON CENTER/doctor if you feel unwell.
 P405 Store locked up.
 P403+P233 Store in a well-ventilated place. Keep container tightly closed.
 P501 Dispose of contents/container in accordance with local/regional/national regulations.

(Contd. on page 2)

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 08.08.2014

Revision: 01.08.2014

Product Name: ALKA KLENZ - LO FOAM

(Contd. of page 1)

3 . COMPOSITION AND INFORMATION ON INGREDIENTS

Chemical Characterization: Mixtures**Description:** Mixture of substances listed below with nonhazardous additions.**Hazardous Components:**

497-19-8	Sodium carbonate ⚠ Eye Irrit. 2, H319	>60%
10213-79-3	Sodium metasilicate pentahydrate ⚠ Met. Corr. 1, H290; Skin Corr. 1B, H314; ⚠ STOT SE 3, H335	10-30%

4 . FIRST AID MEASURES

Inhalation: If inhaled, remove to fresh air. Seek medical attention if breathing problems develop.**Skin Contact:**

In case of skin contact, immediately remove contaminated clothing and wash skin and hair with running water. Seek medical attention if symptoms occur.

Eye Contact:

In case of eye contact, hold eyelids apart and flush eye with running water for at least 15 minutes or until advised to stop by Poisons Information Centre or a doctor. Seek immediate medical attention.

Ingestion: If swallowed, do not induce vomiting. Seek immediate medical attention.**Information for Doctor**

Product is a mixture of alkaline salts containing a moderate proportion of sodium metasilicate and a low proportion of mixed surfactants. Causes burns, risk of serious eye damage. Contact Poisons Information Centre.

5 . FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Water fog or fine water spray.**Specific Hazards Arising from the Chemical:**

Contact with active metals such as aluminium, tin and zinc, especially in the presence of moisture, generates flammable hydrogen gas. Combustion products include carbon dioxide, oxides of phosphorous and traces of sulphur oxides.

Special Protective Equipment and Precautions for Fire Fighters:

Wear Safe Work Australia approved self-contained breathing apparatus and full protective clothing.

6 . ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures:

Wear Safe Work Australia approved dust/particulate filter respirator and full protective clothing. Evacuate all non-essential personnel from affected area. Do not breathe dust. Ensure adequate ventilation. Avoid generating dust.

Environmental Precautions:

In the event of a major spill, prevent spillage from entering drains or water courses.

Methods and Materials for Containment and Cleaning Up:

(Contd. on page 3)

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 08.08.2014

Revision: 01.08.2014

Product Name: ALKA KLENZ - LO FOAM

(Contd. of page 2)

Stop leak if safe to do so. Slippery when wet.

For small spills: If local regulations permit, mop up with plenty of water and run to waste, diluting greatly with running water. Otherwise absorb spill with inert absorbent material and transfer to a suitable container and arrange removal by a disposals company.

For large spills: absorb spill with sand, earth or other absorbent material. Transfer both solids and liquids to a suitable container for disposal. Treat residues as for small spillages.

7 . HANDLING AND STORAGE

Precautions for Safe Handling:

Use of safe work practices are recommended to avoid eye or skin contact and inhalation of dust. Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

Conditions for Safe Storage:

Store in a cool, dry and well ventilated area. Keep container tightly closed when not in use. Store in original container. Protect from physical damage and direct sunlight. Keep away from acids, oxidising agents, active metals such as aluminium, tin and zinc and metals in the presence of moisture. Keep out of reach of children.

8 . EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Standards:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Engineering Contols:

Ensure adequate ventilation of the workplace. If handling industrial quantities, or if dust risk exists, provide exhaust ventilation or other engineering controls to keep the airborne concentrations of dust as low as possible.

Personal Protective Equipment (PPE):

Respiratory Protection:

Where an inhalation risk exists, wear a Class P1 (particulate) respirator. At high dust levels, wear a powered air purifying respirator (PAPR) with Class P3 (Particulate) filter or an air-line respirator or a full-face Class P3 (particulate) respirator. See Australian/New Zealand Standards AS/NZS 1715 and 1716 for more information.

Skin Protection:

Rubber or plastic gloves. See Australian/New Zealand Standard AS/NZS 2161 for more information. When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered.

Impervious overalls, plastic apron, sleeves and boots should be worn when handling industrial quantities. See Australian/New Zealand Standard AS/NZS 4501 for more information.

Eye and Face Protection:

Eye and face protectors for protection against dust, such as face shield and safety glasses. See Australian/New Zealand Standard AS/NZS 1337 for more information.

9 . PHYSICAL AND CHEMICAL PROPERTIES

Appearance:

Form:	Granular powder
Colour:	White
Odour:	Slight detergent odour
Odour Threshold:	No information available

(Contd. on page 4)

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 08.08.2014

Revision: 01.08.2014

Product Name: ALKA KLENZ - LO FOAM

(Contd. of page 3)

pH-Value:	About 11.5
Melting point/Melting range:	No information available
Initial Boiling Point/Boiling Range:	No information available
Flash Point:	Not applicable.
Flammability:	Product is not flammable.
Auto-ignition Temperature:	No information available
Decomposition Temperature:	No information available
Explosion Limits:	
Lower:	Not applicable
Upper:	Not applicable
Vapour Pressure:	No information available
Density:	No information available
Relative Density:	No information available
Vapour Density:	No information available
Evaporation Rate:	No information available
Solubility in Water:	Soluble in water
Partition Coefficient (n-octanol/water):	No information available
VOC:	None

10 . STABILITY AND REACTIVITY

Possibility of Hazardous Reactions:

Highly alkaline mixture. Will react vigorously or violently with acids, generating carbon dioxide, a simple asphyxiant. Slightly hygroscopic, may absorb moisture from the air. May react with strong oxidising agents. Corrosive to active metals, such as aluminium, tin, zinc and galvanised iron, especially in the presence of moisture, generating hydrogen, a flammable gas.

Chemical Stability: Stable under normal conditions.

Conditions to Avoid: Physical damage to container, direct sunlight, air and moisture.

Incompatible Materials:

Acids, oxidising agents, active metals such as aluminium, tin, zinc and galvanised iron.

Hazardous Decomposition Products: Oxides of phosphorous and traces of sulphur oxides.

11 . TOXICOLOGICAL INFORMATION

Toxicity:

LD₅₀/LC₅₀ Values Relevant for Classification:

497-19-8 Sodium carbonate

	LC ₅₀	2300 mg/m ³ /2hrs (rat)
--	------------------	------------------------------------

Oral	LD ₅₀	4090 mg/kg (rat)
------	------------------	------------------

10213-79-3 Sodium metasilicate pentahydrate

Oral	LD ₅₀	1153 mg/kg (rat)
------	------------------	------------------

Acute Health Effects

Inhalation:

Inhalation of dust will irritate the upper respiratory system. May cause a burning pain in the nose and throat, coughing, wheezing and shortness of breath. Risk of delayed onset pulmonary oedema (build up of fluid in the lungs). Aspiration of the mixture into the lungs during swallowing or vomiting may cause serious lung injury.

Skin: May cause irritation and burns, will cause degreasing effect on skin, especially when wet.

Eye: May cause severe irritation and possible eye burns. Risk of permanent injury.

(Contd. on page 5)

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 08.08.2014

Revision: 01.08.2014

Product Name: ALKA KLENZ - LO FOAM

(Contd. of page 4)

Ingestion:

Corrosive if swallowed. May cause nausea, vomiting, severe irritation and abdominal pain, ulceration and/or bleeding from the stomach, duodenum and small intestine. May cause electrolyte disturbances, shock and collapse.

Skin Corrosion / Irritation: Causes severe skin burns.

Serious Eye Damage / Irritation: Causes serious eye damage.

Respiratory or Skin Sensitisation: Based on classification principles, the classification criteria are not met.

Germ Cell Mutagenicity: Based on classification principles, the classification criteria are not met.

Carcinogenicity: This product does NOT contain any IARC listed chemicals.

Reproductive Toxicity: Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Single Exposure: May cause respiratory irritation.

Specific Target Organ Toxicity (STOT) - Repeated Exposure:

Based on classification principles, the classification criteria are not met.

Aspiration Hazard: Based on classification principles, the classification criteria are not met.

Chronic Health Effects:

Repeated skin contact may lead to irritation, dermatitic effects and possible sensitisation. Prolonged or repeated inhalation of dust may lead to nose bleeds, nasal congestion, erosion of the teeth, perforation of the nasal septum, chest pain and bronchitis.

Existing Conditions Aggravated by Exposure: No information available

12 . ECOLOGICAL INFORMATION

Ecotoxicity:

Harmful to aquatic organisms. Contains phosphate which may contribute to the development of algal blooms. Contains a very low proportion of an alkoxyated alcohol. Local concentrations may be harmful to aquatic organisms, including fish.

Aquatic toxicity: No information available

Persistence and Degradability: No information available

Bioaccumulative Potential: No information available

Mobility in Soil: No information available

13 . DISPOSAL CONSIDERATIONS

Disposal Methods and Containers:

Avoid disposal to natural waters or the environment. Do not use metal containers. Dispose according to applicable local and state government regulations.

Special Precautions for Landfill or Incineration:

Not suitable for incineration or some landfill sites. Please consult your state Land Waste Management Authority for more information.
