4 First Aid Measures

Inhalation:

If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention if breathing problems develop.

Skin Contact:

In case of skin contact, immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms occur.

Eye Contact:

In case of eye contact, hold eyelids open and rinse with water for at least 15 minutes. Seek medical attention if symptoms occur.

Ingestion:

If swallowed, do not induce vomiting. Immediately rinse mouth with water. Give a glass of water. Never give anything by mouth to an unconscious person. Seek medical attention if symptoms occur.

Symptoms Caused by Exposure:

Inhalation: Harmful if inhaled. May cause respiratory irritation, burning sensation in the chest, cough, laboured breathing, shortness of breath, sore throat and loss of consciousness.

Skin contact: Causes severe skin burns, blisters and redness. May cause cyanosis or pale skin.

Eye contact: Causes serious eye damage. May cause redness and blurred vision.

Ingestion: May cause irritation or burns to the mouth, throat and stomach. May cause abdominal cramps, burning sensations, nausea, vomiting, intense thirst, weak and rapid pulse, shallow breathing, weakness, confusion, loss of consciousness, reduced urine output and death. Aspiration of froth into the lungs may cause chemical pneumonitis and pulmonary oedema.

5 Fire Fighting Measures

Suitable Extinguishing Media: Water fog or fine water spray.

Specific Hazards Arising from the Chemical:

Hazardous combustion products include oxides of phosphorus and carbon, hydrogen iodide and iodine.

This product is not flammable, but may decompose in a fire. Contact with metals may generate flammable hydrogen gas.

Containers close to fire should be removed if safe to do so. Use water spray to cool fire exposed containers.

Special Protective Equipment and Precautions for Fire Fighters:

When fighting a major fire wear self-contained breathing apparatus and protective equipment.

6 Accidental Release Measures**Personal Precautions, Protective Equipment and Emergency Procedures:**

Wear approved respiratory protection and full protective clothing. Evacuate all non-essential personnel from affected area. Do not breathe vapours. Increase ventilation.

Environmental Precautions:

In the event of a major spill, prevent spillage from entering drains or water courses.

Methods and Materials for Containment and Cleaning Up:

Stop leak if safe to do so and absorb spill with sand, earth, vermiculite or some other absorbent material. Collect the spilled material and place into a suitable container for disposal.

7 Handling and Storage**Precautions for Safe Handling:**

Reacts violently with bases.

Reacts with strong oxidising agents.

May be corrosive to metals.

Use of safe work practices are recommended to avoid eye or skin contact and inhalation of vapours.

Food, beverages and tobacco products should not be stored or consumed where this material is in use.

Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

Conditions for Safe Storage:

Store in original container in a cool, dry and well ventilated area. Keep container tightly closed when not in use. Protect from physical damage and direct sunlight. Keep away from bases including carbonates and bicarbonates, oxidising agents, mercaptans, epoxides, azo compounds, organic sulphides, metals and wood.
