INNOVATION EVENT

Monday 21 October – 10.00am to 2.00pm
 Lismore Gateway Hotel & Restaurant
 99 Ballina Rd, Lismore NSW

Finger food and refreshments provided

Interactive workshop aimed to inspire greater efficiencies & increase profits

Gain valuable product insights from our talented local & international speaker's focusing on "Dairy Technology & Calf Rearing"

Daviesway thrive on innovation – and, on sharing it. Nothing excites our team more than finding the right solution for our customers and there have never been so many options out there when it comes to new builds, retrofitting or renovating.

*For those considering changing to, or are currently using Triangular Vented Liners, International guest **Maciej Dyrka – Technical and Sales Manager from Milkrite / InterPuls (Eastern Europe and Oceania)** will be joining us.*

MILKRITE TRIANGULAR VENTED LINERS

Find out why this is considered the best liner for milking cows.

SR2 SPRAYING ROBOT

The SR2 is a 'must have' tool for your rotary milking system. The benefits to your operation, workers and cows make this machine vital in your pursuit of harvesting the highest quality milk.

CR-1 – ELECTRONIC CUP REMOVER

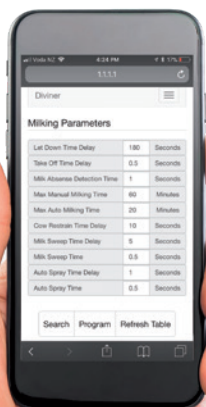

Daviesway has released a new Automatic Cup Remover (ACR), which is driven by wi-fi.

CR-1 system can be used to replace other brands of cluster remover controllers

CALF REARING

Raising healthier calves is the goal of every farmer. Brendan Johnson (Daviesway) shares experience gathered from some of Australia's best calf rearing setups.

Monday 14 October

DAVIESWAY
IDEAS TO FARM. EVERYDAY.

daviesway.com.au

SCOUR TEST KIT

- Kit tests for Rotavirus, Coronavirus, E.coli (K99) and Cryptosporidium
- Quick and easy to use, with results available in less than 10 minutes
- Each kit contains 5 tests.

CALF-TEL HUTCHES

Simply the best, most cost effective housing systems for raising healthy calves.

GERMIDET

- Powerful biodegradable, germicidal detergent and sanitiser
- Ideal for eliminating bacteria in and around calf pens and housing
- Steriliser and disinfectant for calving tools and equipment.

BIOCALF – PROBIOTIC CALF STARTER

Promotes immunity, recovery and improves digestion. BioCalf is a non-antibiotic powder additive for milk and milk powder that protects your next generation naturally. May aid in the control of coccidiosis in calves.

AUSTRALIA'S ONLY
DRIED BOVINE COLOSTRUM

KWIK START

Colostrum supplement which boosts or replaces colostrum for newborn calves. It carries high levels of the immunoglobulins and antibacterials that are needed to give calves a flying start.

KETA-GO

Assists cows around calving to move smoothly into lactation.

BIOBOOST – PROBIOTIC PASTE

High performance micro-encapsulated, multi-strain probiotic – promotes immunity, recovery and improves digestion. Ideal for animals of any age that are stressed, sick or at weaning.

40x
Stronger than competing products

May help control
Coccidiosis
in calves

1000
DOSES
PER POUCH

STORE & THAW – COLOSTRUM MANAGEMENT SYSTEM

Complete kit to test, pasteurise, store, freeze & safely re-heat colostrum

RUBBERWARE

All Skellerup rubberware that contacts with milk complies with REACH, BfR and FDA standards.

Blue line rubber milk tube

STOPPER POSITION & CALF WEIGHT SAFETY GUIDE

SAFETY TIP

Comes with a Peach teat cap for easy transition between teat and tuber.

TRUSTI TUBER

Quality tube feeder for calves.

OPEN TROUGH FEEDERS

- Choice of larger tanks at 500L or 1000L
- Larger tank lids with three way locking system, built to withstand high wind
- Lower inspection point with repositioned side access. Stronger frame with heavier gauge galvanised steel
- Easy click-and-clean system
- Easy turn Hansen milk taps.

Quality range of Milk, Air and Claw Tube
